INDIGENOUS WHOLISTIC HEALING SERVICES

BRINGING HEALING TO MANY

We at Indigenous Wholistic Healing Services are asking all community leaders to please join us in a multi fold effort. We would like to bring Health & Wellness to all communities and all peoples everywhere. It is quite evident that the pandemic and the effects of the pandemic have done irreparable damage to the lives of many. On a consistent basis our agency is approached to provide grief and loss therapy and counseling to countless communities. Lives have been affected and people everywhere are struggling with the means to cope day to day.

The workshop PowerPoints that we are marketing are meant as a tool to equip Frontline Workers to confidently and competently deliver top notch programming to the people that they work with. Whether the programming is delivered on a group level or in a personal setting, it will enhance individuals' capabilities to learn and gather self-help tools towards finding balance in their lives.

These workshops are being marketed to all Indigenous communities in North America. Everyday communities from all over North America are obtaining these workshops.

We encourage all community leaders to make these workshops available for your people.

Starting IMMEDIATELY 25% of all sales for the workshop packages will be going towards YOUTH INITIATIVES.

THIS MEANS THAT IF YOU PURCHASE OUR WORKSHOP PACKAGE YOU WILL BE IMMEDIATELY HELPING YOUTH.

YOUR SUPPORT IS GREATLY NEEDED AND APPRECIATED.
